

# IN THE CLAIMS

(1) Cancel Claims 13-37 and add the following Claims 38-157:

38. (New) A silicone oil-based anhydrous cosmetic or dermatological composition comprising a homogeneous fatty phase, said fatty phase comprising a mixture of:

(i) at least one silicone oil having the formula:

wherein:

R represents alkyl having 1 to 30 carbon atoms, aryl or aralkyl, n represents a whole number between 0 to 100, and

m represents a whole number between 0 and 100, provided that the sum of n + m is between 1 and 100; and

(ii) a wax having a melting point between 50 and 135°C, said wax being a homopolymer or copolymer having a molecular weight between 200 and 1,500 and being selected from the group consisting of ethylene homopolymers and copolymers of ethylene with a monomer having the formula:

wherein:

R' represents alkyl having 1 to 30 carbon atoms, aryl or aralkyl;  
wherein the combined amount of the silicone oil and the wax is at least three percent by weight of the total weight of the composition.

D-3  
39. (New) A composition as recited in claim 38, wherein the at least one silicone oil is present in an amount ranging from about 5% to about 97% by weight with respect to the total weight of the fatty phase.

40. (New) A composition as recited in claim 38, wherein the at least one silicone oil is present in an amount ranging from about 10% to about 90% by weight with respect to the total weight of the fatty phase.

41. (New) A composition as recited in claim 38, wherein the wax is present in an amount ranging from about 3% to about 50% by weight with respect to the total weight of the fatty phase.

42. (New) A composition as recited in claim 38, wherein the wax is present in an amount ranging from about 5% to about 30% by weight with respect to the total weight of the fatty phase.

43. (New) A composition as recited in claim 38, wherein the fatty phase is present in an amount ranging from 3 to 100% by weight of the total weight of the composition.

44. (New) A composition as recited in claim 38, wherein the at least one silicone oil has a viscosity of 5 to 500 centistokes measured at 25°C.

45. (New) A composition as recited in claim 38, wherein the at least one silicone oil is selected from the group consisting of phenyl trimethicone and bisphenyl hexamethicone.

46. (New) A composition as recited in claim 45, wherein the at least one silicone oil is phenyl trimethicone.

47. (New) A composition as recited in claim 45, wherein the at least one silicone oil is bisphenyl hexamethicone.

48. (New) A composition as recited in claim 38, wherein the molecular weight of the wax is between 200 and 1000.

49. (New) A composition as recited in claim 48, wherein the at least one silicone oil is selected from the group consisting of phenyl trimethicone and bisphenyl hexamethicone.

50. (New) A composition as recited in claim 49, wherein the at least one silicone oil is phenyl trimethicone.

51. (New) A composition as recited in claim 49, wherein the at least one silicone oil is bisphenyl hexamethicone.

52. (New) A composition as recited in claim 38, wherein the wax is an ethylene homopolymer.

53. (New) A composition as recited in claim 52, wherein the at least one silicone oil is selected from the group consisting of phenyl trimethicone and bisphenyl hexamethicone.

54. (New) A composition as recited in claim 53, wherein the at least one silicone oil is phenyl trimethicone.

55. (New) A composition as recited in claim 53, wherein the at least one silicone oil is bisphenyl hexamethicone.

56. (New) A composition as recited in claim 52, wherein the molecular weight of the ethylene homopolymer is between 200 and 1000.

57. (New) A composition as recited in claim 56, wherein the at least one silicone oil is selected from the group consisting of phenyl trimethicone and bisphenyl hexamethicone.

58. (New) A composition as recited in claim 57, wherein the at least one silicone oil is phenyl trimethicone.

59. (New) A composition as recited in claim 57, wherein the at least one silicone oil is bisphenyl hexamethicone.

60. (New) A composition as recited in claim 52, wherein the molecular weight of the ethylene homopolymer is between 200 and 700.

61. (New) A composition as recited in claim 60, wherein the at least one silicone oil is selected from the group consisting of phenyl trimethicone and bisphenyl hexamethicone.

62. (New) A composition as recited in claim 61, wherein the at least one silicone oil is phenyl trimethicone.

63. (New) A composition as recited in claim 61, wherein the at least one silicone oil is bisphenyl hexamethicone.

64. (New) A composition as recited in claim 52, wherein the molecular weight of the ethylene homopolymer is between 200 and 500.

65. (New) A composition as recited in claim 64, wherein the at least one silicone oil is selected from the group consisting of phenyl trimethicone and bisphenyl hexamethicone.

66. (New) A composition as recited in claim 65, wherein the at least one silicone oil is phenyl trimethicone.

67. (New) A composition as recited in claim 65, wherein the at least one silicone oil is bisphenyl hexamethicone.

68. (New) A composition as recited in claim 52, wherein the molecular weight of the ethylene homopolymer is between 500 and 700.

69. (New) A composition as recited in claim 68, wherein the at least one silicone oil is selected from the group consisting of phenyl trimethicone and bisphenyl hexamethicone.

70. (New) A composition as recited in claim 69, wherein the at least one silicone oil is phenyl trimethicone.

71. (New) A composition as recited in claim 69, wherein the at least one silicone oil is bisphenyl hexamethicone.

*Sub E6*  
72. (New) A composition as recited in claim 52, wherein the molecular weight of the ethylene homopolymer is between 500 and 1000.

*03*  
73. (New) A composition as recited in claim 72, wherein the at least one silicone oil is selected from the group consisting of phenyl trimethicone and bisphenyl hexamethicone.

74. (New) A composition as recited in claim 73, wherein the at least one silicone oil is phenyl trimethicone.

75. (New) A composition as recited in claim 73, wherein the at least one silicone oil is bisphenyl hexamethicone.

76. (New) A composition as recited in claim 52, wherein the molecular weight of the ethylene homopolymer is between 700 and 1000.

77. (New) A composition as recited in claim 76, wherein the at least one silicone oil is selected from the group consisting of phenyl trimethicone and bisphenyl hexamethicone.

78. (New) A composition as recited in claim 77, wherein the at least one silicone oil is phenyl trimethicone.

79. (New) A composition as recited in claim 77, wherein the at least one silicone oil is bisphenyl hexamethicone.

80. (New) A composition as recited in claim 52, wherein the molecular weight of the ethylene homopolymer is between 500 and 1500.

81. (New) A composition as recited in claim 80, wherein the at least one silicone oil is selected from the group consisting of phenyl trimethicone and bisphenyl hexamethicone.

82. (New) A composition as recited in claim 81, wherein the at least one silicone oil is phenyl trimethicone.

83. (New) A composition as recited in claim 81, wherein the at least one silicone oil is bisphenyl hexamethicone.

84. (New) A composition as recited in claim 38, wherein said fatty phase further comprises a fatty substance.

85. (New) A composition as recited in claim 84, wherein said fatty substance is present in an amount ranging from 0.5 to 92% by weight based on the total weight of said fatty phase.

86. (New) A composition as recited in claim 38, further comprising a vegetable wax.

87. (New) A composition as recited in claim 86, wherein said vegetable wax is carnauba wax.

88. (New) A composition as recited in claim 38, further comprising a mineral wax.

89. (New) A composition as recited in claim 88, wherein the mineral wax is ceresin wax or microcrystalline wax.

90. (New) A composition as recited in claim 38, further comprising a fossil wax.

91. (New) A composition as recited in claim 90, wherein the fossil wax is ozokerite.

92. (New) A composition as recited in claim 38, further comprising an animal wax.

93. (New) A composition as recited in claim 92, wherein the animal wax is a lanolin compound.

94. (New) A composition as recited in claim 93, wherein the lanolin compound is selected from the group consisting of lanolin wax, lanolin alcohol, hydrogenated lanolin, hydroxylated lanolin, acetylated lanolin, fatty lanolin acids and acetylated lanolin alcohol.

95. (New) A composition as recited in claim 38, further comprising a hydrogenated oil which is solid at 25°C.

96. (New) A composition as recited in claim 38, further comprising a fatty ester which is solid at 25°C.

97. (New) A composition as recited in claim 38, further comprising magnesium myristate.

98. (New) A composition as recited in claim 38, further comprising a vegetable oil.

99. (New) A composition as recited in claim 98, wherein the vegetable oil is jojoba oil.

100. (New) A composition as recited in claim 38, further comprising a synthetic oil.

101. (New) A composition as recited in claim 38, further comprising an animal oil.

102. (New) A composition as recited in claim 38, further comprising an organic alcohol.

103. (New) A composition as recited in claim 102, wherein the organic alcohol is linolenic alcohol.

104. (New) A composition as recited in claim 38, further comprising an organic powder.

105. (New) A composition as recited in claim 104, wherein the organic powder is a polyamide.

106. (New) A composition as recited in claim 104, wherein the organic powder is polytetrafluoroethylene.

107. (New) A composition as recited in claim 38, further comprising a mineral powder.

108. (New) A composition as recited in claim 107, wherein the mineral powder is barium sulfate.

109. (New) A composition as recited in claim 107, wherein the mineral powder is titanium dioxide.

110. (New) A composition as recited in claim 107, wherein the mineral powder is talcum.

111. (New) A composition as recited in claim 107, wherein the mineral powder is silica.

D3 112. (New) A composition as recited in claim 107, wherein the mineral powder is a silicate.

113. (New) A composition as recited in claim 107, wherein the mineral powder is alumina.

114. (New) A composition as recited in claim 107, wherein the mineral powder is a zeolite.

115. (New) A composition as recited in claim 107, wherein the mineral powder is zinc oxide.

116. (New) A composition as recited in claim 107, wherein the mineral powder is iron oxide.

117. (New) A composition as recited in claim 107, wherein the mineral powder is mica.

118. (New) A composition as recited in claim 38, further comprising an organo-metallic powder.

119. (New) A composition as recited in claim 118, wherein the organo-metallic powder is a pigment.

120. (New) A composition as recited in claim 119, wherein the organo-metallic powder is a pigment selected from the group consisting of zirconium with organic coloring agents, barium with organic coloring agents and aluminum with organic coloring agents.

121. (New) A composition as recited in claim 38, further comprising a pigment.

122. (New) A composition as recited in claim 38, further comprising an oily gel agent.

123. (New) A composition as recited in claim 122, wherein the oily gel agent is a cholesterol compound.

124. (New) A composition as recited in claim 122, wherein the oily gel agent is an argillaceous mineral.

125. (New) A composition as recited in claim 124, wherein the argillaceous mineral is a montmorillonite.

126. (New) A composition as recited in claim 38, further comprising an antioxidant.

127. (New) A composition as recited in claim 38, further comprising a preservative.

128. (New) A composition as recited in claim 38, further comprising a filter.

129. (New) A composition as recited in claim 38, further comprising a vitamin.

130. (New) A composition as recited in claim 38, wherein the composition is a solid product.

131. (New) A composition as recited in claim 130, wherein the solid product is a stick.

132. (New) A composition as recited in claim 131, wherein the solid product is a lipstick.

133. (New) A composition as recited in claim 130, wherein the solid product is a compressed powder.

134. (New) A composition as recited in claim 38, wherein the composition is a make-up composition.

135. (New) A composition as recited in claim 134, wherein the make-up composition is a foundation.

136. (New) A composition as recited in claim 134, wherein the make-up composition is a lipstick.

137. (New) A composition as recited in claim 134, wherein the make-up composition is a blusher.

138. (New) A composition as recited in claim 58, wherein the composition is a solid product.

139. (New) A composition as recited in claim 138, wherein the solid product is a stick.

140. (New) A composition as recited in claim 139, wherein the solid product is a lipstick.

141. (New) A composition as recited in claim 138, wherein the solid product is a compressed powder.

142. (New) A composition as recited in claim 58, wherein the composition is a make-up composition.

143. (New) A composition as recited in claim 142, wherein the make-up composition is a foundation.

144. (New) A composition as recited in claim 142, wherein the make-up composition is a lipstick.

145. (New) A composition as recited in claim 142, wherein the make-up composition is a blusher.

146. (New) A composition as recited in claim 62, wherein the composition is a solid product.

147. (New) A composition as recited in claim 146, wherein the solid product is a stick.

148. (New) A composition as recited in claim 147, wherein the solid product is a lipstick.

149. (New) A composition as recited in claim 146, wherein the solid product is a compressed powder.

03 150. (New) A composition as recited in claim 62, wherein the composition is a make-up composition.

151. (New) A composition as recited in claim 150, wherein the make-up composition is a foundation.

152. (New) A composition as recited in claim 150, wherein the make-up composition is a lipstick.

153. (New) A composition as recited in claim 150, wherein the make-up composition is a blusher.

154. (New) A composition as recited in claim 38, wherein the amount of silicone oil and wax present is in a ratio of about 3:1 to about 1:2.

155. (New) A composition as recited in claim 154, wherein the silicone oil to wax ratio is about 3:1 to about 2:1.

156. (New) A composition as recited in claim 154, wherein the amount of silicone oil present is greater than the amount of wax present.

157. (New) A composition as recited in claim 154, wherein the amount of wax present is greater than the amount of silicone oil present.
